Stone. The Foundation for Memorable Spaces.

For more than 35 years, Eldorado Stone® has been refining the art of architectural stone veneer. Today, Eldorado Stone is recognized for creating stone veneer that is truly believable, rich in texture and full of character. In a word: authentic. It’s no wonder that Eldorado Stone is specified by discriminating architects, builders, designers and masons the world over.

This is a comprehensive product catalog, yet it simply can’t tell the entire story. To fully appreciate Eldorado Stone, you’ve got to see it to believe it. Start by visiting www.eldoradostone.com to view inspirational installations of unique products and projects. Then, visit your local Eldorado distributor.

In short, we encourage you to leave no Eldorado Stone unturned. The more you discover, the more you’ll be convinced that Eldorado is The Most Believable Architectural Stone Veneer in the World®.

LOOKING FOR INSPIRATION?
See how some of the most talented architects and designers nationwide have combined shape, texture, color, volume and light to create unique and memorable spaces with stone.

To find out how you can obtain The Allure of Permanence, an exquisite 160 page full-color hardbound book, visit www.eldoradostone.com or call 800.925.1491.

The Allure of Permanence
NATIONWIDE PROFILES

Every piece of Eldorado Stone® is cast from a special mold of an actual natural stone, selected for its exceptional shape, texture and character. Each stone is hand-finished by highly trained Eldorado Stone artisans using a variety of natural mineral oxides which infuse each stone with rich, authentic tones. The distinctive, one-of-a-kind process is Eldorado’s alone, and it’s also what guarantees The Most Believable Architectural Stone Veneer in the World®.

Some stone profiles transcend geography. These are the stones that are as popular in Massachusetts as they are in Oregon, as desirable in Virginia as they are in Wyoming. These are the stones that comprise the Nationwide profiles of Eldorado Stone.

So, whether you’re remodeling a farmhouse in Pennsylvania, building a lodge in Colorado, restoring a ranch in Arizona or renovating a coastal home in California, there’s a Nationwide profile — or combination of Nationwide profiles — for the job.
**LedgeCut 33™**

LedgeCut 33 brings modern refinement to your space. LedgeCut 33 offers individual stones for an authentic appearance. The 33 represents the 3” height and 3 lengths of 12”, 18” and 24” within the profile.

Simplifying large-scale installation

Mountain Ledge Panels are shaped like Mountain Ledge stones (above) but they are precast as a panel system to facilitate ease of installation where larger stones are needed for a greater expanse or height. The simplicity of this panel system retains the appearance of Mountain Ledge’s precision hand-laid dry-stack set.

**THE IMPACT OF GROUT**

Grout color and techniques can dramatically alter the look of any stone. Compare the appearance of Wheatfield RoughCut when dry-stacked (far left) versus overgrouted (left). For more information visit www.eldoradostone.com.
All the romance. All the warmth. All the authenticity and all the dramatic potential of brick. And more. Molded from centuries-old European dwellings, every Eldorado Brick has the distinct earthen texture and Old-World character that captures the eye and warms the heart. Each individual brick has irregularly-sized dimensions and subtle color blends that complement the overall visual appeal.

Standard brick looks somewhat commonplace in its conformity. But, Eldorado Brick is a chunk of history. Available in four distinctive profiles and twelve color palettes, Eldorado Brick provides endless opportunities for creative, innovative installation expressions.
DIMENSIONS & TEXTURES UNLIKE CONVENTIONAL BRICK

RomaBrick has a wider proportioned, slightly thicker form. TundraBrick is a classically-shaped profile with slightly squared edges that are chiseled and worn. ViaBrick is proportioned similar to RomaBrick, but smaller in form and ModenaBrick, conventionally sized, has soft corners with round, beveled edges.

Visit online at www.eldoradostone.com/brick to experience more of the romance, warmth, and authenticity of Eldorado Brick.

Out of profound respect for regional building materials and styles, Eldorado Stone® has developed and refined its Regional Profiles. Eldorado’s Regional Profiles include shapes and colors from three of the most influential regions of the country: the East, the West, and the Northwest.

The stones in our Regional Profiles are the product of countless stone-gathering trips into the fields, meadows, mountains, canyons, and riverbanks that grace different parts of our country. They are also the result of careful study of great American stone architecture – from the classic stone houses of Pennsylvania and the adobe ranch houses of New Mexico, to the ledgestone homes of Colorado.

The potential design applications for Eldorado Stone are limited only by the imagination.
Nationwide Profiles and Accents manufactured throughout the continental United States are available through our certified network of Dealers and Distributors. We also offer a variety of Regional Profiles manufactured in your specific region. They are indigenous stones developed for local architectural styles and color palettes.

For more information please contact Eldorado Stone toll free at 800.925.1491 or visit www.eldoradostone.com.
Dating back to colonial times, the Eastern region of the United States has a rich tradition of building with stone. The Mid-Atlantic states in particular, including New York, New Jersey, Delaware, Maryland, and Pennsylvania, were blessed with plentiful and easily accessible stone — from the ashlar-shaped stone types of New York to the randomness of Pennsylvania rubble. The stone architecture of the region also benefited from the skilled stone workers who immigrated here, particularly from Scotland, Germany, Italy, and the Scandinavian countries.

Eastern region architectural styles were often built with an abundance of stone. From the early 17th & 18th century Georgian, Colonial and Federal styles symmetrically ordered and gracefully detailed, to simplified farmhouses, stone types selected for specific styles remain esteemed depictions for that particular architectural statement.

Eldorado’s Eastern Profiles — Mountain Ledge, Country Rubble, Limestone, CoastalReef, among others — respects the shapes, textures and color palettes of the stone types found in the region.
Bridgeport Limestone with an overgrout technique
Amber Falls Weather Edge with a dry-stack grout technique
Think of the American West and what comes to mind: buildings made of stone that almost blend in with the landscape; sprawling ranch style homes on the windswept prairie plains; Spanish colonial architecture with breezeways that welcome the elements; even adobe, the classic Southwestern brick made from earth and straw.

Eldorado Stone’s Western Regional Profiles include, among others, Rustic Ledge, Quarrystone, Coarsed Stone, River Rock and Country Rubble. Each admires the shapes, textures and color palettes of the stone types found in the region. In addition, Eldorado Stone® now offers one of the most versatile and revered materials in the history of architecture: adobe. For those interested in capturing the essence of the indigenous architecture of the southwestern United States, Eldorado Adobe™ is an excellent choice.

Respecting the regional distinctions that help us develop and refine appropriate regional profiles is what makes Eldorado Stone the manufacturer of The Most Believable Architectural Stone Veneer in the World."
Coal Canyon Cobblestone with a standard grout technique

Buckskin Mountain Ledge with a dry-stack grout technique
From ancient dwellings to Southwestern pueblos, religious congregations and assemblies, adobe has provided character and warmth for centuries. And now, Eldorado conveys that same endearing ardor for your home.

Three warm, subtle color palettes comprise the adobe product line. Whether it’s installed as a monumental façade or a simple retaining wall, Eldorado Adobe is the perfect complement that projects timeless Southwestern charm.

Solano CaminoAdobe with an overgrout technique.
Solano CaminoAdobe with an overgrout technique
NORTHWESTERN PROFILES

In general, the geology of the Pacific Northwest is characterized by darker tones; darker than that of the western United States. Consequently, many Northwestern regional profiles from Eldorado Stone reflect this darker color palette. From the dark gray-browns of the tailored, chisel-cut Broken Top to the mix of sienna brown and ashen gray ledge-like stone of Mountain Ledge, each Northwestern regional profile is distinct.

Many Pacific Northwest structures were also built with an abundance of stone. Eldorado’s Northwestern Regional Profiles — which includes, among others, Limestone, Vintage Manor, Cobblestone and Stacked Stone honors the architecture by producing stone types respective of the region.

Willamette Broken Top with a standard grout technique
Copper Mountain Ledge Panels with a dry-stack grout technique
Gemstone Walls provide the inspirational recipe for creating drama and beauty inside your home. Experience “before & after” transformations as Eldorado Stone turns ordinary spaces into energized and stunning architectural statements. Each Gemstone Wall has been designed to create a memorable space that is attainable, purposeful and most of all, believable. Get started today by downloading any of our Gemstone Idea Books online, the detailed recipe for making your Gemstone Wall a reality.

An Idea Book is available online for each of the Gemstone Wall plans, visit www.eldoradostone.com/gemstones
**MediaWall**

The MediaWall redefines home entertainment with an unexpected combination of high-tech media components, modern shelving and uniquely curving rustic brick wall.

**VinoWall**

The VinoWall presents the perfect pairing of wine and stone. Create this full-bodied Gemstone Wall in kitchens, dining rooms or perhaps a private wine cellar.
**ZenWall™**

The ZenWall brings the soothing permanence of the outdoors inside, creating a tranquil space anywhere a relaxing retreat is desired.

**EmberWall™**

The EmberWall transforms traditional fireplace design into a refined and contemporary architectural statement.
The CandleWall is a very impressive plan that combines the warmth and texture of stone with the elegance and subtle glow of candles.

The ArtWall is the perfect composition of form and function. This simple, yet stunning transformation can be attained easily and economically in a wide variety of interior spaces.
ARCHITECTURAL ACCENTS

Every work of art deserves a great frame and many times it’s the final details that make an ordinary project, extraordinary. Architectural Accents from Eldorado Stone are no exception to this philosophy. Each accent has been created by hand to meticulously emphasize unique color hues and detailed sculptural characteristics…the essence of true masonry craftsmanship.
Historically masons have worked with natural stone to create unique accent pieces to finalize their projects. Chiseled Edge Accents feature a hand-dressed appearance with a uniform, yet rustic detail. Available in Taupe, Earth, Smoke and Buckskin.

**Chiseled Edge Accents**

**Wainscot Sill Straight**
- 2.5" x 19.75" x 3"

**Column & Wall Caps**
- Column Caps Available in 2 Sizes:

San Marino Limestone with Buckskin Ashlar Trim Stones, Keystones and Wainscot Sills
Snapped-Edge Accents feature irregular edge details and random undulations that look as if they had been hand chiseled on location. Additionally, each accent features subtle yet contrasting color highlights on the surface and edge details for the ultimate natural appearance. Available in Walnut, Pewter and Sand.

**WAINSCOT SILL**

19.75” x 3” x 1.5” (face) to 2.5” (back)

**COLUMN CAPS**

Available in 3 Sizes:
- 18” x 18” x 1.5”
- 22” x 22” x 1.5”
- 24” x 24” x 1.5”

**WALL CAPS**

Available in 2 Sizes:
- 18” x 14” x 1.5”
- 24” x 14” x 1.5”

**HEARTHSTONE**

20” x 20” x 1.5”

**RECESSED Drip Edge**

Snapped Edge Wainscot Sills have a recessed drip edge on the underside to prevent water from returning behind the stone or dripping onto the face of the stone wall.

**Old World Accents**

Mason’s have long created distinctive forms with concrete to trim their stone and brick installations. These accents were usually created with wood molds or forms, showcasing uniform shape, yet an overall handcrafted appearance. Old World Accents embody this age old technique and are available in three colors; Cortona, Riverbed and Bracciano.

**TRIM MOLDING**

11.5” x 4.5” x 2”

**COLUMN CAPS**

Available in 2 Sizes:
- 21.75” x 21.75” x 3”
- 25.5” x 25.5” x 3”

**WALL CAPS**

Available in 2 Sizes:
- 23.75” x 11.75” x 2”
- 23.75” x 17.75” x 2”

**CROWN DETAIL**

11.5” x 2.875” x 2”
**Travertine Accents**

The natural appearance of Travertine is captured flawlessly in these accents. Designed to trim doorways and windows, the refined stone texture will surely dress up any project. Available in Taupe, Earth, Smoke and Buckskin.

**Utility Accents**

Utility Accents create a simple yet decorative way of transitioning from the utility to the stone or brick veneer.
CRAFTSHIELD™

Preserving the Art of Masonry. CraftShield is a protective treatment that preserves the intended artistry and beauty of manufactured stone veneer while safeguarding the surface from the elements.

- **Water Repellent:** CraftShield is a pre-diluted, penetrating, breathable and water-based silane/siloxane water repellent.

- **Versatile:** Designed for use on concrete and most masonry surfaces including Eldorado Stone and Eldorado Brick veneer.

- **10 Year Protection:** Chemically bonds deep within the stone to help resist staining, spalling, cracking and other damage related to water intrusion.

- **Low VOCs:** Low odor and alkaline-stable formula is ideal for both exterior and interior applications.

- **Won’t Change the Look:** Goes on wet and dries invisible to the eye.

© 2011 ELDORADO STONE, LLC
Because Eldorado Stone replicates natural stone, variations should, and can be expected. Even though colors in this brochure are as close to the actual stone as possible, photographic and printing techniques — and actual viewing conditions — can alter perception of color.

If you would like more information on prices, availability of stone, the name of your local distributor, or answers to any questions not covered in this brochure, please contact us. We would be happy to assist you with your stone building plans. Detailed installation instructions, specifications, technical information and test data is available upon request.
