Architecture plays an important role in the evolution of society. The way our structural surroundings work in concert with function and aesthetics affects us more than we realize, shaping how we live and influencing our cultural identity.

The composition, texture, size and shape of materials used in buildings or living spaces have a significant impact on how we perceive space. Brampton Brick is constantly evolving, taking all these factors into consideration when developing our wide selection of products, engineering our masonry and landscaping materials to stimulate an instant response. When you see homes, commercial buildings, driveways and landscaping projects that make an impression, you see Brampton Brick products.

As a leading integrated masonry and landscape products provider, Brampton Brick is the One Trusted Source among architects, landscape designers and consumers for quality, style and durability. The trust that our customers place in our company keeps us focused on our primary goal: to lead the way in innovation, affordability and lifetime satisfaction.

When you purchase Brampton Brick Masonry Products, you are making an investment in aesthetics, in longevity and in our company. We take this investment seriously. Motivated every day to “do more, do better”, we aspire to be the industry leader, evolving to meet the needs of our clients and stay ahead of market trends.

State of the art production facilities, meticulous quality control, seamless distribution, superior customer service – we ensure that our products are made to last while continuously exceeding our customers’ expectations.

Jeffrey G. Kerbel, President and CEO

Solid, functional and offering infinite flexibility in design and colour combinations, clay brick is a premier building product for today’s homes. Brampton Brick’s clay bricks are built to last, and actually improve with age, taking on a warmer, richer appearance as the years go by. Worry and maintenance-free, clay brick will add to the value of your home with its durability, sound proofing and fire retardant capabilities. Brampton Brick’s clay bricks are your home’s best friend.

historic series

Clay Brick: Canyon
Stone: Vivace, Verona
Pavers: Enviro Midori, Champagne
HISTORIC SERIES
Inspired by the graceful brickwork of stately historic homes, this series combines a full range of expressive hues, developed over time to work together or with our stone products. Textures ranging from subtle to grooved to pressed bark and diverse edge treatments work with colour to help create a distinctive, personal quality to your home’s look.

All colours in the sizes shown are Stock Item Products.
MEDITERRANEAN SERIES

Colour blends of blues, neutrals and gold hues inspired by Mediterranean sunsets create an elegant yet informal look that complements contemporary designs.
LEGACY SERIES
One of Brampton Brick’s most established product lines, Legacy features natural shades that resemble the look of pressed bark, imparting a stately look to any home.

HOOSIER SERIES
Named after “the Hoosier State” of Indiana, this brick series features unique colour blends that enhance the beauty of Indiana clay, creating a stand-out home with an enduring stature.
No other building material conveys long-lasting strength, beauty and permanence quite like stone. For centuries, stone has been the only choice for creating buildings of both stature and significance. Brampton Brick’s concrete stone products have captured those elements by engineering products with old world-charm. The look of chiseled stone dramatically elevates a homes appearance and adds immeasurable value. A wide array of colour combinations allow for limitless design options for a home that commands attention.
BONNEVILLE
From inception, Bonneville was designed with versatility required to earn its place on modern homes and buildings. Five softly-blended and natural colours were specifically developed to make Bonneville the perfect complement to an array of other Brampton Brick clay brick and stone products. With its flat, smooth surface, clean lines and modern proportions in two individually packaged sizes, Bonneville stands apart from other stones.

vivace
VIVACE
This durable concrete stone merges form and function into one, blending quality, strength and durability with beauty. Vivace’s rich, bold colours and chiseled stone look add an aesthetic element that complements the surrounding landscape.

VIVACE LINEAR
The naturally aged appearance, 4-inch height and seven lengths of our Vivace Linear stone provides the perfect balance between contemporary proportions and gorgeous, natural colours. Vivace Linear, when used on its own brings drama contrasting a modern, linear pattern with a natural aesthetic. Combined with our Vivace or Artiste Stone, Vivace Linear presents a unique customization while staying true to your colour palette. Textured ends on each stone means minimal waste and cutting.

Vivace & Vivace Linear fully meets or exceeds the latest version of the following standards: CSA 165.2 and the ASTM C1634 specifications. Refer to your local building codes for proper installation of product.
LEGATO
This subtly-textured stone, manufactured in a Premier Plus size, comes in natural colours designed to complement our Vivace series. Offering the visual appeal of hand-chiselled stone, it is simple to install for outstanding results.
artiste
ARTISTE
The Artiste Series is an extraordinary masonry veneer product line that elevates the curb appeal of any home with the look of hand-chiselled stone. Available in a palette of neutral colours and warm earth tones, Artiste is easy to install and allows for a variety of configurations by mixing sizes, lengths and combining with other Brampton Brick products.

SEAMLESS TRANSITION WITH BRICK!

All Artiste stone products have been designed to course out with Premier Plus bricks, offering limitless design options.

This artisanal stone product is crafted in our technologically-advanced manufacturing facility, using high-quality, long-lasting materials. Artiste meets or exceeds the latest versions of CSA 165.2 and ASTM C55 standards and specifications. Please refer to your local building code for proper installation.
Norfolk Stone was developed as an ideal choice to provide timeless and enduring curb appeal of stone in one easy package. Designed and manufactured in 11 sizes, Norfolk’s three heights provide versatility in patterning and installation all in one package. Three elegant colour choices range from soft greys to grey-brown blends to soft taupe-tan blends are sure to complement any neighbourhood.
architectural masonry

In addition to our vast product and colour offerings for residential construction, Brampton Brick manufactures a full range of architectural brick and block products. Today’s manufacturing processes ensure consistent quality and strict engineering standards are met in all of our products, regardless of your building project.

**SELECT SERIES**
With its straight edges and velour texture, Select Series colours were developed to fit the needs of today’s designers. Silver provides a contemporary look & feel, while Maroon lends a more traditional appeal to design palettes. Our Valencia colour takes the popular Marshall from our Crossroads Series and incorporates a clean look, where earth-toned projects are complemented by Kodiak’s soft brown tones.

Concrete masonry walls produced with the RainBloc® integral water repellent resist wind-driven rain while still maintaining vapor transmission, reducing the chance of mold, mildew, and musty smells from developing inside a building.

When used as an integral ingredient in our concrete masonry products, RainBloc® provides protection throughout the masonry unit to protect concrete masonry walls from moisture penetration.

To ensure your masonry wall system is completely water repellent you must remember to include the RainBloc® additive to the masonry mortar on site. Specify RainBloc® Water Repellent System when designing with Finesse, Profile Series or Standard and Architectural Block.
Finesse stone is made-to-order in 9 different sizes, 9 distinct colours and 3 finishes. By exploring colour and textures, Finesse delivers durability, style and the truly unique look that you want for your project.

NOTE: Finesse stone fully meets or exceeds the latest version of the following standards: CSA 165.2 and ASTM C 55.

COLOURS

PROFILE SERIES

Brampton Brick’s Profile Series concrete block, available in a wide variety of sizes, colours and finishes adds aesthetic appeal to building projects. Profile’s compressive strength makes it suitable for use in load-bearing or single width masonry walls, while an available water-repellent additive makes it impermeable to water vapour.

Product Property | CSA | ASTM | Typical Brampton Brick Range*
--- | --- | --- | ---
Compressive Strength (min) | > 15 MPa | > 2000 psi | 15 – 20 MPa
Absorption (max) | < 175 kg/m³ | < 13 lb/ft³ | 103 – 126.6 kg/m³
Density | < 2000 kg/m³ | < 125 lb/ft³ | 2120 – 2172 kg/m³

Based on CSA A165.1 and ASTM C90

SIZES

Available Sizes:
- 90 x 390
  - Height 90 mm (3 1/2”)
  - Length 390 mm (15 3/8”)

- 190 x 390
  - Height 190 mm (7 1/2”)
  - Length 390 mm (15 3/8”)

Available Depths:
- 10 cm, 15 cm, 20 cm, 25 cm, 30 cm
- 4", 6", 8", 10", 12"

Available Styles:
- 2 rib, 3 rib, 4 rib, 6 rib
- split ledge, split face corners

Water repellent units are available upon request.

ARCHITECTURAL BLOCK
This split-face block series is available in a wide variety of solid and range colours for many commercial design applications.

Product Property | CSA | ASTM | Typical Brampton Brick Range*
--- | --- | --- | ---
Compressive Strength (min) | > 15 MPa | > 2000 psi | 15 – 20 MPa
Absorption (max) | < 175 kg/m³ | <13 lb/ft³ | 103 - 126.6 kg/m³
Density | < 2000 kg/m³ | <125 lb/ft³ | 2120 - 2172 kg/m³

As you begin planning your dream home, Brampton Brick can help you pull together all the essentials of a solid exterior scheme. Consider the overall look and feel you want to achieve. Have some fun combining colours and textures. For a dramatic look, choose contrasting colours and textures. If you’re looking for a more contemporary design, choose tones from the same colour family, using similar textures or features for brick and stone. Brampton Brick is your One Trusted Source for brick and stone.
## CHOOSING A COLOUR SCHEME

To help you on your way, we've grouped several similar colour chips together below, to convey the overall tone of the product colour.

QUARTZ
Lightly shotblast surface creates a softer, more natural look and lighter colouration.

SMOOTH
The even surface of the smooth texture is attractive and gentle to the touch, but retains the durability you would expect.

EMBOSSED
Added visual appeal and a more natural texture make this a popular choice for exterior masonry veneer.

SPLIT
The highly textured surface of split walls offer a rough-hewn look and deep colouration.

CONTEMPORARY SERIES SHOWN
CONTOPO SHOWN
GRANADA SHOWN
HISTORIC SERIES SHOWN
VIVACE SHOWN
LEGATO SHOWN
FINESSE SHOWN
SUAVE
The surface is precisely ground to expose the aggregate and create an extra-smooth finish.

ARCHITECTURAL BLOCK

TEXTURES
Brampton Brick masonry products are developed to work together in both colour and texture. When choosing your material, it is interesting to consider the effect of texture on the overall appearance of the structure. In the following pages, we have compiled several combinations designed to inspire your creativity, while considering the multitude of colour and texture options available.
Brampton Brick’s products are developed to be integrated through colours, textures and sizes that can easily be combined to suit your individual taste and add a true individual feel to your home’s exterior.

An integrated masonry & hardscape solutions company.

From our very beginning in 1871, Brampton Brick is built from the ground up on brick and stone products created to help architects and designers masterfully create and refine living spaces.

As a leading provider of complete masonry and hardscape solutions, all of our products are precision-engineered with high density factors, meaning a much more durable outdoor living space that withstand the test of time and all the wear and tear that life can throw at it.

When it comes to quality masonry and hardscape solutions, our clay and concrete products deliver a wide selection of colour, texture, and scale, designed to perfectly coordinate across exterior surfaces. Whether you’re buying your first home, building your dream home or designing an architectural masterpiece, you’ll have everything you need to make your project come to life by choosing Brampton Brick as your One Trusted Source.
Product representations shown in this publication are intended to convey the general colour, texture and appearance of the product. Variations may occur in the manufacturing and printing process. Always select from an actual product sample. Please refer to your local building code for proper installation of all products in this guide.
