

NEW!

bonneville

From inception, Bonneville was designed with versatility required to earn its place on modern homes and buildings. Five softly-blended and natural colors were specifically developed to make Bonneville the perfect complement to an array of other Brampton Brick clay brick and stone products. With its flat, smooth surface, clean lines and modern proportions in two individually packaged sizes, Bonneville stands apart from other stones.

Bonneville, Twilight

SIZES

168 x 590 Stone
Depth 90 mm (3 1/2")
Height 168 mm (6 5/8")
Length 590 mm (23 1/4")

257 x 590 Stone
Depth 90 mm (3 1/2")
Height 257 mm (10 1/8")
Length 590 mm (23 1/4")

Coursing: PRP with 168

Coursing: PRP with 257

Coursing: PRP with Combination

FEATURES:

Smooth surface | Five subtle color blends | Two sizes designed to course with Premier Plus size products | CarbonCure™ | RainBloc®

COLORS

CHALET

CLOUDBURST

SANDBAR

DOVER

TWILIGHT

PAIRS WELL WITH:

- Brentwood, Chelsea and other PRP-sized clay brick
- Contempo & Granada

RAINBLOC® TECHNOLOGY

Concrete masonry walls produced with the RainBloc® integral water repellent resist wind-driven rain while still maintaining vapor transmission, reducing the chance of mold, mildew, and musty smells from developing inside a building.

When used as an integral ingredient in our concrete masonry products, RainBloc® provides protection throughout the masonry unit to protect concrete masonry walls from moisture penetration.

To ensure your masonry wall system is completely water repellent you must remember to include the RainBloc® additive to the masonry mortar on site. Specify RainBloc® Water Repellent System when designing with Finesse, Profile Series or Standard and Architectural Block.
