## Facility Information

---

Company Name:	Brampton Brick Limited
Facility Name	Brampton Brick
NPRI Identification No.	7302
Ontario MOE Identification No.	6957
NAICS 2 Code:	31-33 Manufacturing
NAICS 4 Code:	3271 Clay Product and Refractory Manufacturing
NAICS 6 Code:	327120
Number of Full Time Employees:	44
UTM Spatial Coordinates (NAD83):	Latitude: 43.7211 ; Longitude: -79.8164
Datum:	1983

### Owner of the Facility Information

Name:	Brampton Brick Limited 225 Wanless Drive, Brampton ON L7A 1E9
-------	---

### Operator of the Facility Information

Name:	Brampton Brick Limited 225 Wanless Drive, Brampton ON L7A 1E9
-------	---

### Highest Ranking Employee

Name:	Lauren Mulkerns
Title:	EHS Manager
Address:	Brampton Brick Limited 225 Wanless Drive, Brampton ON L7A 1E9
Phone No.	(905) 840-1011
Fax No.	(905) 840-6126
Email:	<a href="mailto:lmulkerns@bramptonbrick.com">lmulkerns@bramptonbrick.com</a>

### Parent Company Information

Legal Name of Parent Company:	Brampton Brick Limited
Address of Parent Company:	225 Wanless Drive, Brampton ON L7A 1E9
Percentage of Facility Owned by Company:	100%
CCRA Business No.	100621424

**Toxic Substances for Which Facility Must Prepare:**

Substances:	Carbon Monoxide – CAS 630-08-0 Hydrogen Chlorides – CAS 7647-01-0 Nitrogen Oxides - CAS 11104-93-1 Sulfur Dioxide – CAS7446-09-5 Particulate Matter (Total) Particulate Matter (less than 10µm) Particulate Matter (less than 2.5µm)

## Notice

---

As of April 18, 2019, the Ministry of the Environment, Conservation and Parks posted decision on the Environmental Registry of Ontario (EBO No.013-4234) to repeal the *Toxics Reduction Act* and associated regulations by December 31, 2021.

As a result, only facilities with existing Toxics Reduction plans will be required to report annually on substances which meet the prescribed thresholds. Reports will not be updated.

## Statement of Intent

---

Based on the nature of the facility operation, no toxics reduction options have been identified as feasible for the facility. However, Brampton Brick Ltd. is committed to playing a leadership role in protecting the environment. The company will continue to implement their Quality Management system as part of their standard operating practices, and to conduct testing to evaluate technically and economically feasible options to reduce the creation of the subject toxic substance. Employees in the company are encouraged to participate in all types of toxics use reduction activities.

## Objectives

---

Brampton Brick has taken the following proactive initiatives to reduce the creation and release of toxic substances:

- **Product reformulation:** The facility has conducted tests to use up to 5% of calcine material to reduce the brick mass and the amount of shale used per brick. The facility will perform additional trials to determine the feasibility of using the material to replace shale in the brick.
- **Spill and leak prevention:** The facility has implemented Kiln Leak Testing Procedures to prevent the release and emissions of the toxic substance during brick production.
- **Inventory management and operating practices:** The facility applied emission control means and best management practice plans to minimize the generation of dust and prevent potential emissions and leaks of particulate matter during the manufacturing processes.

Toxics use reduction will be an ongoing effort for Brampton Brick, and the company will continue to test technological advancements to ensure that reduction options that are both technologically and financially viable are implemented at the facility.

The company will continue their quality management system and kiln leak testing procedures, further improve their inventory management system and operation practices to prevent the release and emissions of the toxic substance during brick production.

## Carbon Monoxide – CAS 630-08-0

Substance Activity	2020 (Current Year)	2019 (Previous Year)	Change from Previous Year	Change from Previous Year (tonnes)	Reason for Change	Reduction Options
Use	0	0	-	-	-	
Created (tonnes)	174.84	133.21	41.60	31.2%	Increase in Production	No technological or financially feasible options identified.
Released to Air (tonnes)	174.84	133.21	41.60	31.2%		
Released to Water	0	0	-	-	-	
Disposed onsite	0	0	-	-	-	
Disposed offsite	0	0	-	-	-	
Transferred for Recycling	0	0	-	-	-	
Contained in product that leaves the facility	0	0	-	-	-

## Plan Certifications

### Carbon Monoxide

**CERTIFICATION BY HIGHEST RANKING EMPLOYEE**

As of December 16, 2013, I, Brad Cobbleddick, certify that I have read the toxic substance reduction plan for the toxic substance referred to below and am familiar with its contents, and to my knowledge the plan is factually accurate and complies with the Toxics Reduction Act, 2009 and Ontario Regulation 456/09 (General) made under that Act.

Toxic Substance: Carbon monoxide (CO) (CAS 630-08-0)

December 16, 2013

Brad Cobbleddick  
 Vice President of Technical Services  
 225 Wanless Drive, Brampton, ON L7A1E9  
 (905) 840-1011  
 (905) 840-6126  
[bcobbleddick@bramptonbrick.com](mailto:bcobbleddick@bramptonbrick.com)

Date

**CERTIFICATION BY LICENSED PLANNER**

As of December 16, 2013, I, Ruouu (Boris) Chen certify that I am familiar with the processes at Brampton Brick Limited that use or create the toxic substance referred to below, that I agree with the estimates referred to in subparagraphs 7 iii, iv and v of subsection 4 (1) of the Toxics Reduction Act, 2009 that are set out in the plan dated December 16, 2013 and that the plan complies with that Act and Ontario Regulation 456/09 (General) made under that Act.

Toxic Substance: Carbon monoxide (CO) (CAS 630-08-0)

December 16, 2013

Ruouu (Boris) Chen (License No. TSRP0239)  
 Project Manager, Environmental Services
