

Simplicity

Our product design process begins with simplicity; A well-conceived lack of complexity that makes our masonry and landscape collections easier to design, quote, and install your most beautiful project vision every time.

Modularity

The sizes and scale of our products were developed for mixing and matching different products within each collection for a completely coordinated look. Each individually distinct unit in our product lines aids in building a continuous function.

Continuity

Every successful home plan pivots around continuity. The unity between form and function, front and back yards, between horizontal and vertical surfaces, and even from masonry to landscape is what truly pulls an outdoor design theme together.

Unity

Our masonry and landscape products are designed for use together in unison. The continuity, affinity of colours, textures, surface finishes, product sizes and scale within our product collections allow various options for combining all these parts into a unified vision where all the elements of your outdoor design fit together.

Artistry

Our fifth axis of design is about you. The preceding four axes provide all the ingredients for enhancing your creativity in any project: versatility in product size, shape, scale, and colour for an optimum product offering. The true artistry is in selecting and utilizing products from our various collections to express your creativity.

THE 5 AXES OF Design

All of our well-integrated product collections are built around different sets of design characteristics, yet revolve around the above five common axes.

PERFECTLY CURATED

Collections

Discover new inspiration through our distinguished collections, where you'll find a selection of recommended products, carefully curated into the best possible product arrangements based on our **5 axes of design**.

Choose products from the same collection for a unified look, or mix and match by combining products across different collections for design themes and accents based on your own unique style and preferences.

Eterna Collection ▶

Our Eterna Collection features landscape products that not only boast sleek designs, but also offer maximum durability. These products are manufactured with technologies such as **EliteFinish™** or **ColorBold™** — which provide deeper, more vibrant colours along with increased durability and stain resistance — for top-tier functionality. Explore our most advanced pavers to ensure high-quality performance.
