

BACKSLOPE ADJACENT TO END OF WALL

NOTE: extending the buried portion on the first course to match the extent of the last course will simplify construction by not having to compact under tiers and reduce the likelihood of differential settlement.

VERTICAL SLOPE ADJACENT TO END OF WALL

This graphic represents a preliminary, non site-specific design. If used for construction, a registered professional engineer must be retained to review & approve the design, confirm site conditions, and inspect construction.
