NOTE:

1. **Stock Item Products**, identified throughout this guide by the (†) symbol, are readily available. All other products are custom order only. Sufficient lead time and minimum order quantities are required. Speak with a Brampton Brick dealer or sales representative for more information.
2. To ensure proper construction, please refer to your local Building Code(s), Standards and Industry Best Practices.
3. Brampton Brick Limited is not design responsible.

Architectural Series

Clay Brick: Architectural Series, Red Velour
Stone Masonry: Finesse, Canvas Beige, Suave

The Architectural Series takes design to another level with a range of classic, through-the-body colors, including reds, browns and blacks. Smooth or velour textures make this series a versatile choice for a multitude of building projects. Available in Modular and Utility sizes, the Architectural Series products scale easily to suit the project, pairing well with other Brampton Brick clay and concrete products.

Crossroads Series

Clay Brick: Crossroads Series, Benton
Stone Masonry: Vivace, Lakeshore

Crossroads Series

Legacy Collection

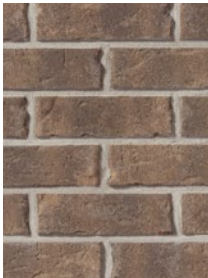

Made from warm red clay unique to Indiana, this series is produced at one of North America's most technologically advanced manufacturing facilities. The Crossroads Series offers rich tones, various textures and a rugged, tumbled appearance.

Vivace

Clay Brick: Crossroads Series, Whitestone
Stone Masonry: Vivace, Foundry

23999

Vivace stone is the first step toward a perfectly coordinated exterior package: a durable concrete stone that merges form and function into one, blending quality, strength and durability with beauty. Vivace's rich, bold colors, multiple sizes and distinctive slate texture harmonize well with many of our clay brick and Oaks Landscape Products, for the ultimate in prestige and curb appeal.

Textures & Colors

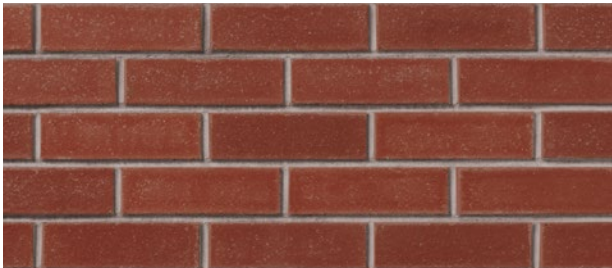

Brampton Brick masonry products are developed to work together in both color and texture. When choosing your material, it is interesting to consider the effect of texture as well as color on the overall appearance of the structure. In the following pages, we have compiled several combinations designed to inspire your creativity.

EMBOSED

Added visual appeal and a more natural texture make this a popular choice for exterior masonry veneer.

SMOOTH

The even surface of the smooth texture is attractive and gentle to the touch, but retains the durability you would expect.

SMOOTH (ARCHITECTURAL SERIES)

EMBOSED (VIVACE SHOWN)

EMBOSED (CROSSROADS SERIES SHOWN)

Blending Vivace Colors

Whether you're looking for something bold or subtle, complementary or contrasting, with a little imagination and planning, Vivace colors can be mixed and matched for a custom effect when blended on site by a skilled stone mason. To help inspire you, we've put together a few examples of how our colors and textures can work together in the following pages.

60% Monument with
40% Foundry

60% Cobblestone with
40% Foundry

60% Dover with
40% Cobblestone

60% Cobblestone with

OUR MASONRY

Collections

Discover new inspiration through our distinguished collections, where you'll find a selection of recommended products, carefully curated into the best possible product arrangements based on our **5 design axes**.

Choose products from the same collection for a unified look, or mix & match by combining products across different collections for design themes and accents based on your own unique style and preferences.

Nueva® Collection

The Nueva Collection of masonry products is the next generation of sleek, low-profile design. This diverse combination of contemporary products offers flush finishes and smooth faces for any modern-looking project.

Rialto Collection

Defined by a hand-chiseled appearance and rich color blends, the Rialto Collection brings together a range of products that confidently merge exquisite form and durable function

Legacy Collection

The Legacy Collection features natural shades and diverse color palettes. Combine these products to give your project the memorable charm you have been searching for.

VIEW MORE OF OUR COLLECTIONS HERE:

THE 5 axes

All of our well-integrated product collections are built around different sets of design characteristics, yet revolve around the following five common axes:

1

Simplicity

Whether you are a homeowner, a designer or a contractor, our product collections make it simple to design, quote and install your most beautiful project vision, every time.

2

Continuity

Every successful home plan pivots around continuity. The unity between form and function, front and back yards, between horizontal and vertical surfaces, and even from masonry to landscape is what truly pulls an outdoor design theme together.

3

Harmony

The affinity of colors, textures, surface finishes, product sizes and scale also contribute to that sense of unity and continuity. We've carefully developed a color palette and product design theme perfectly harmonized to bring peace of mind, knowing that all the elements of your plan will fit together.

4

Unity

Our clay brick and concrete stone products are truly stand-out solo performers, but are at their best when they are used together in unison, and well complimented by our Oaks Landscape Products.

5

Modularity

The sizes and scale of our products were developed for mixing and matching different products within each collection for a completely coordinated home design package.

Stunningly beautiful *masonry & landscape* products,
designed to work perfectly together.
