

Geotextile 300mm (12") wide, turn up against collar and cover all weep holes to prevent bedding material loss.

25mm (1") diameter weep holes, one per side. Bottom of weep holes to be level with the surface of base.

Section A-A

This graphic represents a preliminary, non site-specific design. If used for construction, a registered professional engineer must be retained to review & approve the design, confirm site conditions, and inspect construction.

Paver Installation around Drainage Structures
